The greatest number of large arms are found in the South; first Georgia, hen California, Alabama and Mississippi, North Carolina and Virginia, then Louisiana and Kentucky.

WASHINGTON, August 23.—A prominent Georgia, in conversation to-day, said as to the probable successor of the late Senator Hill, that public sentiment among the Democrats of the State favored the appointment of Ex-Senator John B. Gordon; that although it is known that Governor Colquitt is not inclined favorably to Gordon, he will hardly be able to resist the pressure that is being brought to bear for his appointment of Kentucky. eral Gordon to resign his seat in the Scuate does not now stand in his way to return to that body; that he resigned to carry forward Spirze of changes and reforms, New York cursed with one of the worst specimens of sporate government that exists in the unitry, and the central city government ing bad, public abuses are continually sented.

CASH COMING IN. REASURY RECEIPTS LARGER THAN EVER Washington, August 23 .- The receipts at

Washington, August 25.—The receipts at the treasury are daily more than ever known before within the memory of officials of the department. The amount averages \$1,500,-000 every day, and were it not that the on every day, and were it not that the pecial appropriations made by Congress for rivate claims, deficiencies, etc., are pouring a, the debt reduction for the month would be the largest in the history of the last wenty years. The receipts this month will mount to nearly \$50,000,000. From this here is to be taken as one item \$9,500,000 or pensions alone, besides current expenses for pensions alone, besides current expenses and the special warrants above mentioned. Ever since Congress adjourned, on the 8th of the month, there have been from 240 to 300 of those claims under deficiency bills and private claims put through each day, and from this seurce it is estimated that the disbursements will not fall much short of \$1,000,000 a day. This class of drafts on the treasury will soon fall off, however, for senally during the month after Congress adusually during the month after Congress ad-journs every claim provided for in the ap-propriation bills is presented. While the debt reduction may not be so great this month, it is not unlikely that next month's surplus will require another call for three-and-a-half per cents to dispose of it.
